

TitanForge Manufacturing Pvt. Ltd.

Operational Expense Report — March 2026

Report ID: OPS-2026-1003

Plant Location: Nagpur Industrial Zone

Prepared By: Operations Intelligence Division

Operational Metric Value

Electricity Charges ₹965000

Units Consumed 34800

Diesel Expense 255000

Production Units 9200

Machine Downtime 31 hours

Operational Observation:

Electricity expenditure increased significantly despite lower production output.

Maintenance Observation:

Unexpected machinery interruptions caused abnormal operational inefficiencies and elevated energy consumption.

AI Recommendation:

Urgently inspect high-energy industrial equipment and investigate abnormal operational power usage patterns.
